

Alcohol And Speed

Sponge

There was a girl who told me
There's one million ways to die
And there's about one million more
If you're lookin' to get high

She asked me if I knew she was a Devil at The Wheel
And then she began to show me she knew exactly how I'd feel

I get high, but I feel wasted (Repeat x2)

Give me that speed and alcohol, alcohol and speed
Make me go just a little bit faster, nothin' else I need
Give me that speed and alcohol, alcohol and speed
Make things go just a little bit faster, get me off my knees

I think that we were goin' bout one hundred twenty five
And she pulled out a bottle cuz she loved to drink and drive
I told her that I would not be caught dead playin' that game
She said it was her dream to go out in a ball of flames

I get high, but I feel wasted (Repeat x2)

Give me that speed and alcohol, alcohol and speed
Make me go just a little bit faster, nothin' else I need
Give me that speed and alcohol, alcohol and speed
Make things go just a little bit faster, get me off my knees
If you're lookin' for something that can make you feel alive
If you're livin' like there ain't nothing left of you inside
Keep on searchin' for something that will make you feel alright
You're believing that at the end of the road you will see the light

Give me that speed and alcohol, alcohol and speed
Make me go just a little bit faster, nothin' else I need
Give me that speed and alcohol, alcohol and speed
Make things go just a little bit faster, get me off, get me off
my knees

Get me off, Get me off, Get me off, Get me off my knees (Repeat x2)
