Dance Floor

Sponge

She was so wonderfully splendid
So I asked, may I have this dance with you?
She was electrifying, one question, death-defying
A simple two-step with her

Oh, take me to the dance floor
Oh, won't you take me tonight
Just put your arms around me
I'll promise I will hold tight

I'll be with you spinning around
(...be with you spinning around)
I will be with you

I felt her breath against mine
Sent shivers down my spine
Entangled in the web we weave

Just then the clock struck twelve
She ran off so abruptly
It was like, it was like a fairy tale

Oh, take me to the dance floor
Oh, won't you take me tonight
Just put your arms around me
I'll promise I will hold tight

I'll be with you spinning around
(...be with you spinning around)
I will be with you

It takes two to dance, it takes one to fall in love
It takes two to dance, it takes one

Oh, take me to the dance floor
Oh, won't you take me tonight
Just put your arms around me
(...arms around me, arms around me)

Oh, take me to the dance floor
Oh, won't you take me tonight
Just put your arms around me
I'll promise I will be there

I'll be with you spinning around
(...be with you spinning around)
I will be with you

It takes two to dance, it takes one to fall in love
It takes two to dance, it takes one, one, one, one...
