

# Dandelions Roar

Sponge

There you are, you're my falling star  
Though the music's playing, you're my favorite song  
You know this can't be wrong  
It's not like it belongs to you and me...

To you I pray, you're my holiday  
You're my blue jean dancer  
Through my dreams you run  
The hope before the loss  
Before the clouds above me shadow me...

You don't seem to care  
Is anybody there?  
There is no reason, there is no answer, here's your answer  
Can you hear the dandelion's roar?

You're the sun  
You're my lucky one  
Breathe my laughter, when everything is gone  
With all that you promise  
All that it cost, you rescue me...

You don't seem to care  
Is anybody there?  
There is no reason, there is no answer, here's your answer  
Can you hear the dandelion's roar?

Hear them roar?  
I said hear the dandelion's, hear the dandelion's roar  
Hear them roar?

You don't seem to care  
If any gods out there  
There is no reason, there is no answer, here's your answer  
Can you the dandelion's roar?  
Hear them roar?  
I said hear the dandelion's, hear the dandelion's roar  
Hear them roar?  
I said hear the dandelion's, hear the dandelion's roar  
Hear them roar?  
I said hear the dandelion's, hear the dandelion's roar
