

# Destroy The Boy

Sponge

You lost that inner city fight  
In a world that act like it don't know you  
Act like it don't know  
You look for angels in the street  
Thinking that you just might find an answer  
But there are no answers

It's hard to care in a world that just don't give a damn

Destroy, destroy the boy  
Know this world is killing you  
So why are they accusing you  
Destroy the girl that makes noise  
Know this world's abusing you  
Know this world can't silence you

You cry yourself to sleep at night  
Hoping that your dreams will make it better  
Dreams will make it better  
Dreams will push you from the edge  
Now you find you're simply falling faster, simply falling faster  
No one's ever, ever there to break your fall

Destroy, destroy the boy  
Know this world is killing you  
So why are they accusing you  
Destroy the girl that makes noise  
Know this world's abusing you  
Know this world can't silence you

Hear you, screaming, locked inside a world that's lost it's way  
Reach out, find me, I'll wait here with fire in my eyes, fire in my e  
yes

Destroy, destroy the boy  
Know this world is killing you  
So why are they accusing you  
Destroy the girl that makes noise  
Know this world's abusing you  
Know this world can't silence you

Destroy, destroy, destroy  
Know this world is killing you  
So why are they accusing you  
Destroy, destroy, let's make noise  
Know this world's abusing you  
Know this world can't silence you
