Impossible

Sponge

So, the story ends
That's the way it goes
Are you happy that it's over
Look, if it comes again
You don't know when
Or exactly where

Everything's wrong when something really matters to me

Life's so impossible
Everything's impossible
When she's so impossible
I guess that's why I'm impossible

Look, here I come again
With my rodeo
I want to break your wild horses
Look, here I come again
With your cowboy saddle
Kick me in the teeth

Everything's wrong when something really matters to me

Life's so impossible
Everything's impossible
When she's so impossible
I guess that's why I'm impossible

Everything's wrong when something really matters to me

So, the story ends
That's the way it goes
Are you happy that it's over
Look, if it comes again
You won't know when
Or know exactly what I'm saying

Life's so impossible
Everything's impossible
When she's so impossible
I guess that's why I'm impossible
