Spooky Tooth

We took of today and I don't know destination
We only met last night yet I feel all the come
Still I came I felt no hesitation
Somehow I feel with you something strange had begun

Fantasy satisfier
Fantasy satisfier
Will you take me much higher
Will you take me away

We roll on down the highway headin' for the sun
As we got into each other I knew it was right
Deep inside I knew I needed someone
Who can give direction to my empty life

Fantasy satisfier

Will you take me much higher
Will you take me away

The journey's gettin' on and I'm feelin fine
The miles of and I feel close for you
You're tellin' me stories that make my mind wonder
It's all so strange you came out of the blue
