

Hell Or High Water

Spooky Tooth

I got to feel the need and it started me back
It didn't take too long to see
That I'd been blazing trails gettin' lost
I've been through listening to losers just fixing to die
And the thought of you getting lonely is making me cry

I've chased rainbows in the dark
I've been beat before I could start
I've been turned down
I've been pushed round
But hell or high water couldn't keep you from me
Hell or high water can't keep you from me
It never could be
Can't you see

I had the fear staying here I was wasting my time
Only now I see I was wrong leaving you solved nothing at all
I always knew deep inside I'd come back for your love
And when things got bad it was always you that I'd be thinking
of

I've chased rainbows in the dark
I've been beat before I could start
I've been turned down
I've been pushed round
But hell or high water couldn't keep you from me
Hell or high water can't keep you from me
It never could be
Can't you see

I've chased rainbows in the dark
I've been beat before I could start
I've been turned down
I've been pushed round
But hell or high water couldn't keep you from me
Hell or high water can't keep you from me

I've chased rainbows in the dark
I've been beat before I could start
I've been turned down
I've been pushed round
But hell or high water couldn't keep you from me
Hell or high water can't keep you from me
It never could be
Can't you see
