

I Can't Believe

Spooky Tooth

I can't believe you want to leave
When you know it hurts me so
Down on bended knee
Beg you please not to go

Think of all the love we shared
And all the fun we had
Now you want to leave
You know when drive me mad

My life, my heart, my love
Is in your hands
And now you gonna leave me
You gonna leave me for another man

Of all the love we shared

Of all the fun we had
Now you wanna leave
Don't you know when to drive me mad

My life, my heart, my love
Is in your hands
And now you gonna leave me
You gonna leave me for another man

I can't believe you want to leave me babe
And you know it hurts me so
Down on bended knee
Beg you please not to go
