

## Love Is Real

Spooky Tooth

Sometimes I sit in lonely places  
Think 'bout those distant faces  
And there's one that's always near  
? Face all through it ? shows so clear  
Love is real

Watch the clouds roll slowly by  
See this face up in the sky  
Sadly gazing and reflecting  
Thing I've done with her respecting  
Love is real

The more ?I stare ?in real belief  
A smile appears within its grief  
....then I realise  
Real love has no time for lies  
Love is real
