

This Time Around

Spooky Tooth

As he waved goodbye
I could feel him sigh
Then he faded away
As the light of day began to dazzle my eyes
As he left me
I cried brother, where are you going to
From his fading breath
I could barely hear him saying to me

Your time is coming
You'll hear the sound
My time is this time around
Your time is coming
You'll hear the sound
My time is this time around

In the sunrise through the morning haze
As the daylight came
I could see his face before me
Like a silhouette of light
I cried brother, where have you gone to
Them somewhere in my mind
I could feel him saying to me
Your time is coming
You'll hear the sound
My time is this time around
Your time is coming
You'll hear the sound
My time is this time around

I cried brother, where have you gone to
Them somewhere in my mind
I could feel him saying to me

Your time is coming
You'll hear the sound
My time is this time around
Your time is coming
You'll hear the sound
My time is this time around
