

## Mind of an Insomniac

Spor

Welcome to the mind of an insomniac  
Spor, Icicle, Linguistics

Night's gone, all I can do is want it back  
Welcome to the mind of an insomniac  
Welcome to the mind of an insomniac  
Welcome to the mind of an insomniac

Wide awake with a mind filled with Zopiclone  
No one's awake in the city, trust me, I'm on my own  
Somewhere between the lines of deep meditation  
And a paranoid state from the sleep deprivation  
Medicate my brain, still never feel sane  
Wondering why I can't move from this vegetative state  
Night's gone, all I can do is want it back  
Welcome to the mind of an insomniac

Welcome to the mind of an insomniac
