Off-road

Spose

Still drivin' down the same road
Yeah, I know where it's headed
I dread it, I know better
But do I change? No
I thought I'd be
Comin' of age
But I'm stuck in my ways
Yeah, I'm my own worst
Enemy, I'll probably be the end of me
If I don't find the exit
From this road first
The devil is the chauffeur
I've been with raccoons
Under the moon chasin' rap star archetypes
Got my lungs tired, full of black tar carbonite
And in the mornin' with these blunts alone
Drove by tons of bones in this comfort zone
Look, I can feel it's wrong in the pit of my stomach
But this loop's my Indy 500
I need to steer off this same dumb road
'Cause I can only be great in the great unknown

Push that pedal till I can't turn back
Keep on drivin' till the skies turn black
Get away from all the same-time tracks
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road

I know this phone's a bottomless pit
But it's still in my grip
I been swipin' even though I told 'em I might quit
I been drinkin' till I'm dumb
I been thinkin' till I'm dumb
I eroded through the road tire, sinkin' in the mud
Another mornin' out here on my road most traveled
Headed up to shit's creek again, no paddle
With too much freedom, too much leeway
That can really rock a fella, Beanie Sigel freeway
I think I need a recourse, need a detour, someone save me
Since I got this license, all I did was drive me crazy
I know the outcome of this game plan
Look, I wish I could tell you I'm a changed man
I need to take control, need to leave this track
'Cause I been beaten back on this beaten path
And can I stop? No
Got a little time on the clock, so
Hold on, we're goin' off-road

Push that pedal till I can't turn back
Keep on drivin' till the skies turn black
Get away from all the same-time tracks
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road

Push that pedal till I can't turn back

Keep on drivin' till the skies turn black
Get away from all the same-time tracks
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road
I'm gonna drive this thing off-road
