

# Self Destruct

Spose

No, no, I won't bail out, go ghost  
Gotta get it 'cause we made it, aw yeah, hell yeah  
Never quit and won't initiate self-destruct  
You've gotta take me out

Sometimes my mind says no, body stuck on automatic  
I don't wanna smoke, it got me feelin' like an addict  
Tryna get the picture but the station only static  
I remember when my mom was hidin' in the attic  
Swim in my mind, let me know what y'all find  
Faded gray since I thought I'd be the greatest all time  
I can't dance this limbo  
And they don't make meds for imposter syndrome  
Got my fanbase, damn great, they're still with me  
What I say got hits, Bobby, we love Whitney  
When I finally got fifty, I want sixty  
Paranoia, paranoia comin' to get me  
But despite all that or perhaps because of it  
Life hit me, cracked, bounce back and bludgeoned it  
Gotta snipe me out, better wipe me out  
Better fireball my character, I won't pipe down

I won't bail out, go ghost  
Gotta get it 'cause we made it, aw yeah, hell yeah  
Never quit and won't initiate self-destruct  
You've gotta take me out

As I grew up, everything got harder  
Everything they said stuck to me like armor  
Gross times smell like low tide in the harbor  
As I got smarter, the world got darker  
When I saw five, killed the child inside  
The growin' up made me stronger, I survived, still alive  
Made it through the loop, everything  
Just like Shane, used to sing  
So now we tap dance devil's fingertips off my Jordans  
'Cause I don't wanna smash the button and go back to nothin'  
Even though I've been down like I'm grabbin' somethin'  
Gotta take me out, gotta break me now  
You better pull me underground before I reach these clouds

I won't bail out, go ghost  
Gotta get it 'cause we made it, aw yeah, hell yeah  
Never quit and won't initiate self-destruct  
You've gotta take me out  
No, no, I won't bail out  
'Cause we made it, aw yeah, hell yeah  
Won't initiate self-destruct  
You've gotta take me out

You've gotta take me out  
You've gotta take me out
