

## Talk So Much

Spouse

Yeah I rip hearts in ten parts, and punk y'all like Deebo  
The pen starts, I bend bars and flip cars, Magneto  
The best up, I'm so clutch, you Jackass, that's Steve-O  
You got clout, I'm on route to get Green like CeeLo  
We don't deal with all this talking, who the fuck is really next to jump?  
Payin' all my dues, but overdrafted, let me check the funds  
Y'all be looking pristine, working clean, the image sum  
And I'm soaking up game, I guess I am a different sponge  
Knock off the rust, I'm 'bout to snap and turn this punch to dust  
Me and Spouse the bash brothers, Webby makes the Mighty Ducks  
Your favorite rapper talking gibberish and hooked on hella drugs  
But I be talking nonsense too, so maybe we ain't different, huh?  
Listen up, going fisticuffs and talking shit, just knowing  
That I'm a cross between Logan, Ricky Gervais and Rogan  
Provokin' lions in these cages never hurt us  
'Cause a lion might be stronger, but a wolf ain't in the circus, uh

Bitch, who is you, why you talk so much?  
Why you talk so much, huh? Just shut the fuck up  
Thought you'd get by with that bullshit once  
You thought you'd get by? You fucked up, huh?  
Bitch, who is you, why you talk so much?  
Why you talk so much, huh? Just shut the fuck up  
Thought you'd get by with that bullshit once  
You thought you'd get by? Looks like your luck's up

My logo on my head, walking out the shed  
Climbing up the walls like the Army of the Dead  
In the dark night, bars like bats if you spell it wrong  
Catalog chunky so I just bought it a Peloton  
Bullshit detector on, I can tell you're smelling wrong  
Nah, nah, I get you then forget you like I'm Kevin's mom  
[?]  
Me, Ekoh, Web, that's Megatron  
You don't deserve these vocals, I've been anti-social  
Lately only talk to the beats, your shit's weak  
It's a Croc, it's rubber shoes you rock on your feet  
It's obnoxious, if your song's on it then a playlist is a pause-list  
'Cause I'm a genius with a plan  
You're a fetus as a man, tryna tangle with ours  
We school fools, bars full of language arts  
Who? who tryna hoist a flag when they don't know the ropes?  
Save the bullshit, bro, it's not my first rodeo

Bitch, who is you, why you talk so much?  
Just don't talk, just shut the fuck up  
Thought you'd get by with that, bullshit once  
Uh huh, but, you fucked up, huh?  
Bitch, who is you, why you, talk so much?  
Why you talk so much? Just shut the fuck up  
Thought you'd get by with that (Yeah, yeah) bullshit once (Yeah, yeah)  
But looks like your luck's up (Infinite, ayy)

Go and check the evidence  
Webby's at the precipice of excellence  
Rugged as Leo up in The Revenant  
Haters stayin' silent like they imitating Kevin Smith

And they ain't saying shit, bunch of fuckin' instrumentalists  
Devilish, out on the coast like Catan settlements  
Comin' for the rings on they Knuckles, no Sega Genesis  
I'm not the one to meddle with, killing shit and then I dip  
My Range Rover got more horsepower than Pegasus  
Independent, mom-and-pop, rare as an honest cop  
With no fuckin' ceiling in sight like a marijuana stock  
Step to me and you'll get molly-whopped, I'll make your body drop  
And have your posse watch, you pussies softer than a cotton crop  
I'm gettin' worked up, I'm really not a jerk but  
I get impulsive when I see a pot that isn't stirred up  
That's why your wifey's ears and titties getting perked up  
Webby's on a wave, fucking surfs up (Yuh)

Bitch, who is you, why you talk so much?  
Just don't talk, just shut the fuck up  
Thought you'd get by with that, bullshit once  
Uh huh, but, you fucked up, huh?  
Bitch, who is you, why you talk so much?  
Why you talk so much? Just shut the fuck up  
Thought you'd get by with that bullshit once  
But, looks like your luck's up
