

## That Info

Spouse

You know me from my trail of information  
Information (Info, info)  
Info, info  
So much info, info

The earth and the tables are turning, let's get 'hind the furnace  
I guess we got reason out here to be nervous  
Coordinates calculated like they shh  
Like they planned out the murder  
They got me tracked like it's vocals, vocals  
It's locos  
Encryption is linked into photos  
Location and info on locals  
Constrictions and clicked on a promo  
I saw what you're thinking it's over  
I saw what you're thinking it's over  
I saw what you're thinking it's over (They want the info, the info)

Exploding into lines of coding (The info, the info, the info, the info)  
It's written in stone if you wrote it (The info, the info, the info, the info)  
It's in the cloud it's floating  
I'm running like Edward Snowden (The info, the info)  
I see what you like (The info, the info)  
What you seek, what you buy (The info, the info)  
Indiscreet, what you typed  
Visually, I see it

I could run through a maze of your fingerprints  
Let your guard down, come and let me right back in  
I know the real you  
Give to me now, give it to me now

I saw, I saw what you might'a said  
Worldwide, worldwide in the spiderweb  
You got a trail, a tail of breadcrumbs  
Bytes like bedbugs hold up  
I saw, I saw what you might'a said  
Worldwide, worldwide in the spiderweb  
You got a trail, a tail of breadcrumbs  
Bytes like bedbugs hold up  
I saw, I saw what you might'a said  
Worldwide, worldwide in the spiderweb  
Who you follow, what you borrow, who you swallow  
And you gave us yesterday, you know we're coming for tomorrow  
The phone and the kindle  
It's really that simple  
The character symbol, the info, the info, the info, the info

You know what the deal is  
I'm not conducting abusive concealment  
Just read the instructions and you can reveal it  
Not hidden, it's written in user agreement  
It seem to me you're skipping steps  
You [?], you're quick to jet  
You eager beavs just clicking "next"  
So let the legalese come and grip your neck

And now it's done, won't get erased  
Nowhere to hide 'till the end  
Now I'm the ump at second base  
When you're sliding in those DMs  
I see what you said  
The text came out your head  
You're safe with me, I'll keep you here  
Just wait and see plus you know what I want

That info, info  
Info, info  
Info, info  
I know what you're into  
I know what you've been through  
I know who you are  
Got that info, info  
I got in your car  
Got that info, info  
Man, I'm in your pocket  
I hear just what you said  
You thought no one was watching  
I know it when you're talking  
I know it when you're silent  
I got that info, info  
That you've been providing  
That info, info  
That info, info  
We want the info, the info, the info ([?])

Exploding into lines of coding (That info, info)
