

Get Backers

SpotemGottem

Rico that's my slime he'll do you like you're Mitch
Every time we bend niggas screaming that I'm hit
Back door gang we leave niggas on they dick
Pick your blicky up boy, well you a bitch
I remember me and cash used to be posted on the six
Nigga turn to Forest Gump when I up this blick
Send your top shooter cause the other nigga a bitch
Me and brodie out the sunroof that's an assist

Grip on that bitch so it don't jump up when you squeeze
This the red key, plus she been sucking dick this bitch a demon
The place we catch a nigga loafing at that's just where we gon' leave him
Fiending for bodies and blood just like I'm anemic
I bet I be a nigga nightmare like horror season
All I know is get my lick back man this shit easy
I was tripping that night, guess I wasn't on my peaches
I don't want that hoe no more she give me too many freebies
Choppa bullets leave ya shit wide open, like that shit 3D
I don't want the twat no more, I rather her to eat me
Watch foe nem bend back the door
She like cream and throw a 3 peat
Oh my unlock the sunroof, I know the opps see me

Murder, the type of shit that get you deep fried
In my eyes, ride the D niggas pussy
More homicide, when we pull up on a pussy
Make mommas cry
We left bullet holes in a opp's ride
With my switch, she just ride if you pop out
If we box him in then he's dying
Then we don't know what to do, probably have a meeting I
We finna act like Jesus I'm the reaper, you want to meet the guy
I leave shit on a stretcher
Your boy's no better
Swinging with a glock no beretta
FN and the blood on his sweater
