SpotemGottem

Scrape the bowl until my wrist lock
I can't leave without my g lock
Park the whip so I can speed out
Pour her 4s inside my knee highs
Dead opps they got deep fried
He ain't thugin he lyin'
They like he lucky he survived
Demons all in my eyes
I see they mimic me now
4nem got cut throat gunplay
I earn my stripes now
Don't even get put to sleep now
Her pussy soft just like a peach
I fuck I just got deep now
Nickname banana peach now
I fuck her good, I sneak out

I put a button on my g lock just to let it speak now
Less than 5 seconds did it right here let the 30 squeeze out
Ain't on no monkeys no more so I let the perky tweak out
How you just up and leave now, how you just up and leave now
The way this hoe be sucking dick like she don't use no teeth now
A bot bitch but she's a neat freak, clean up and clean out
Like it's the 4th of July my switch it's gonna ring out
She say that she love me now I told her how can you lie
I put her on a leash now still don't think we will be fine
All the memories got me missed and screwed, I wish that we can rewind
I'm perfectly fine, left you in the blind
It's like I'm meeting you now, like I'm meeting you now

Scrape the bowl until my wrist lock

Pour her 4s inside my knee highs
Dead opps they got deep fried
