

Do you wanna dance

.sPout.

do you wanna dance
do you wanna dance
do you wanna dance
do you wanna dance

you are welcome

do you wanna dance - so move your body and raise your hands
do you wanna dance - so move your body and raise your hands
do you wanna dance with us - dance!
do you wanna roll with us - dance!
do you wanna rock with us - dance!

you are welcome

you are now entering the fun zone
you can feel it in your bones
from head to toe - the ".sPoutcore fun show"
we make the heads - explode
we make the girls - dance
make all our bodies raise up their hands
it's time for party
the beer is never empty
we cannot get ill
at our show - there is no thrill'
and after the show - a fine chilling
the party never stops
we rock the party up

come on - follow me - to the ".sPout.core party dome"
there you are not alone
there I use the stage like a throne
without a crown - but with my microphone
and I tell you - leave your worries at home
take a look - all faces shine like chrome
and I'm the "rhyme representer"
if you know the password - you can enter
the ".sPout.core dancing center"
where we were friends
where we rock the party untill it ends
and the party will never stop
when we rock da party up

so do you wanna dance with us?
come on sisters
we never want to stop - we move!
come on brothers
so keep it in your head and dance!
come on sisters
because this is how we live - in trance!

come on brothers

do you wanna dance with us - dance!
do you wanna roll with us - dance!
do you wanna rock with us - dance!

have a little break now
I have to take a deep breath now
but not too long because I will be back - with another party rhyme
when I get a beat - right in time

I come through the beat and with me a "partyrhyme"
I ride it like a wave - I follow it like a path
which takes me to da ".sPout.core. partydome"
there I use the microphone
to get into your ear - but don't be afraid and show no fear
it's no crime or a robbery - it's just part of our party scenery
and this is where we are - real life shows - no tapes -
no playbacks - just live tracks
and our backpacks are full with sixpacks
we stay for stress free partys
and I got on more question
for all those - who enjoy this too

do you wanna dance
do you wanna dance
do you wanna dance

you are welcome

do you wanna dance with us?
come on sisters
we never want to stop - we move!
come on brothers
so keep it in your head and dance!
come on sisters
because this is how we live - in trance!
come on brothers
