

Get Ready

.sPout.

Get ready set, get ready set go, get ready set, get down with the flow, go Get ready set, get ready set go, get ready set, get down with the flow, go go - here we go

Get ready set get ready set go, oh shit, oh no, what the hell is going on, I need an idea but I ain't got one, I really need one and I need it now, I need it quick, cause I got to show a lyrical trick. I cannot show it, I'm not sick enough, in my head there is too much other stuff, I'm lost in a black hole, I got as many ideas as grass grows at the south-pole, to get this blackout out of my head, I know I have to get out of this black hole, how can I make this black cloud disappear, I have to make my head clear, to make space for a new idea, I stop to concentrate me, I try to feel the sound and its energy, and then I'm ready. Get ready set go!

Now I'm here, I see clear, no black cloud in the atmosphere, now I'm here and I see clear, Now I'm here I see clear, no blackout in my head up here, now I'm here and I see clear.

On with the show, on with the text, check what's next, I'm totally relaxed, my head is clear, I can see clear, no black cloud in the atmosphere, no blackout in my head up here, I stay here and you stay there I'm on the mic and I'm on air, I'm on stage since ninety nine, since this time I rock the set with the rhymes of mine, if you don't believe it, check out my timeline, the blackout is over, the black clouds are gone, I follow the sun, cause I need a sunbeam to turn my word-flow into a word-stream, since ninety nine we are standing here, since this time we are a team.

Chorus

Get ready set go - get down with the flow Get ready set go - get down with the flow
