

Better

SPRINTS

Oh, I liked you better
Oh, I liked you good and clean
Before you turned bad weather
Raged a storm inside of me

Well, the going got tough
And the rough got going
And I begged for forgiveness
But you prayed for unknowing it all

Oh, I liked you better
Oh, I liked you chemically
Before the bitter got the getter
And your world started unravelling

Now I'm coming up the short
And I'm coming down the fall
And I wish you were here
But you wish I didn't happen at all

Oh, I liked you better
Oh, I liked you better
Oh, I liked you better
Oh, I liked you better

And now we've lost our grip
And we've lost it all
Dropped our pennies in the well
But I'm not wishing you well at all

I liked you better
Oh, I liked you better
Oh, I liked you better
Oh, I liked you better
