

Manifesto

SPRINTS

And I don't need nobody to tell me what to do
And I don't need nobody to tell me what to say
And I don't need nobody to tell me what to do
And I don't need nobody to tell me what to say

I've got a policy of understanding
An economy that's underwhelming
And I can't shake the sense I'm stuck in pretence
And just wishing my life away

Come entertain me
Come entertain me and show me what's right

And I don't need nobody to come and hold my hand
And I don't need nobody to level out the land

I've got a policy of understanding
An economy that's underwhelming
And I can't shake the sense I'm stuck in pretence
And just wishing my life away

Come entertain me
Come entertain me and show me what's right
Come entertain me
Come entertain me and show me what's right

I don't need nobody to tell me what to do
And I don't need nobody to tell me what to say
I don't need nobody to point out my mistakes
I'll leave the lying, the meddling, the cock-ups to the state
