

## Happy Days

Squeeze

Enough of London, let's take a break  
No more excuses, no time to waste  
Pack up a suitcase, drive to the coast  
Just for the weekend, let's hit the roads

Happy days in the haze of summer  
Happy days being with each other  
We're gonna take a break by the rolling sea  
The perfect summer, just you and me

Up in the clear sky, just feel the breeze  
And take some shelter, leave the trees  
All of the summer, sun's beating down  
Within the country, out of town

Happy days in the haze of summer  
Happy days being with each other  
We're gonna take a break by the rolling sea  
The perfect summer, just you and me

The light is fading, it's time to leave  
So we drive home, back to the heat  
Sitting on my sofa, with the friends coming round  
We're over the country, I'm back in town

Happy days in the haze of summer  
Happy days being with each other  
We're gonna take a break by the rolling sea  
The perfect summer, just you and me

Happy days in the haze of summer  
Happy days being with each other  
We're gonna take a break by the rolling sea  
The perfect summer, just you and me

Take a break, by the rolling sea  
We're gonna take a break, by the rolling sea  
Oh we're gonna take a break, of all of this  
You and me  
We're gonna take a break, by the rolling sea  
We're gonna take a break, by the rolling sea  
We're gonna take a break, by the rolling sea
