

It's always raining in the castle
But never outside
You switch it on and switch it off all the time
Why do I dress when there's no one else to see?
Polythene bags
They litter the streets
Polythene bags
They litter the streets

Polythene bags, they'll never go away
Us dogs and rats, will never escape
If you said it could be better out, I probably won't believe yo
u
I'll knock the teeth out my head
And we'll see
All the things waiting for me
Beyond the castle walls
Beyond the garage doors

We put the pellets down
And we walk around the town
We put the pellets down
And we walk around the town
Don't ever say you're bored
'Cause there's always something more
When we put the pellets down
And we walk around the town

Always something more

When we put the pellets down
And we walk around the town
When we put the pellets down
And we walk around the town
Don't ever say you're bored
'Cause there's always something more
When we put the pellets down
And we walk around the town
When we put the pellets down
And we walk around the town
