

Paddling

Squid

(Patient, in control) Patient and in control
(Dig holes like a mole) Dig holes like a mole
(Patient, oars in stow) Patient and oars in stow
(Just do what you're told) Just do what you're told

There are people inside
And they're changing in shape and in size
Where you going? Don't wanna go there
You comb your hair and you tense the muscle
There are people, there are people inside
And they're changing in shape and in size
Where you going? Don't wanna go there
But you comb your hair and you tense the muscle

Patient, in control
Dig holes like a mole
Patient, oars in stow
Just do what you're told

There are people, there are people inside
And they're changing in shape and in size
Where you going? Don't wanna go there
You comb your hair and you tense the muscle
There are people, there are people inside
And they're watching while I'm taking the dive
Where you going? Don't wanna go there
You comb your hair and you tense the muscle

Thrash 'round, make it worse
In your day of firsts
Sink down, through the waves
Red faced now but safe

There are people, there are people inside
And they're changing in shape and in size
Where you going? Don't wanna go there
You comb your hair and you tense the muscle
There are people, there are people inside
Put me a coat and step me in line
Where you going? Don't wanna go there
You comb your hair and you tense the muscle

Don't push me in
Don't push me in
Don't push me in
Don't push me in
Don't push me in
Don't push me in
Well, you're pushing me in
Well, you're pushing me in
Don't push me in
Don't push me in
Well, you're pushing me in
Well, you're pushing me in

(I don't wanna go there
You're pushing me in

I don't wanna go there
You're pushing me in)

Don't push me in
Don't push me in
Don't push me in
Don't push me in
Don't push me in
Don't push me in
