Swing (In A Dream)

Squid

```
The wires in the stream
From rubble to my dream
I worry in my sleep
Rococo curves you soothe me

To live inside the frame
And forget everything
A swing inside a dream
And all they'll do is scream

Come back to float away
A few more inches of rain
I worry in my sleep
Rococo curves don't leave me

To live inside the frame
And forget everything
A swing inside a dream
And all they'll do is scream

To live inside the frame
And forget everything
A swing inside a dream
And all they'll do is scream

To live inside the frame
And forget everything
A swing inside a dream
And all they'll do is scream

To live inside the frame
And forget everything
A swing inside a dream
And all they'll do is scream

We're waking up
To straight lines
We float away
Bye bye

We're waking up
To straight lines
We float away
Bye bye

We're waking up
We're waking up
We're waking up...
```
