

Hurt A Fly

Squirrel Flower

Took it too far again
Thought that you were my friend
I just got the wrong idea
In the morning

Took it too far again
Driving too fast again
Thought that I told you the storm ended
And I'm never wrong

Took it too far again
Followed you home again
Said I'd be back on track once you were gone
But I guess I was wrong

Have you never made a mistake?
Have you never said what you didn't want to say?
Have you never wound up kicking yourself in the face?

Broke your trust again
Thought it would be the end
But then I showed up at your door
With my head in my hands
And you took me in

You know I could never hurt a fly
Unless it wasted my time
You seem kinda messed up
But I don't mind
Have you never made a mistake?
Not sure how much more shit I can take
Thought I was doing my best until you showed up

And said I took it too far again
You thought that I was your friend
But I just got the wrong idea in the morning
And I'm never wrong
