Squirrel Flower

Will you take me in?  
I'm fading and falling  
And everything, you know

How it is, what it is  
What it was and will be

Don't slip or skid  
Or move or breathe  
Or laugh or die  
Or turn or touch me

Don't do anything  
I'm a live wire

To be with you, I'd love another  
To be with you, I'd cut my hair  
To be with you, I'd leave another  
To be with you, I'd kill my friends  
To be with you, I'd fuck it all  
And leave at the first sign of snow

Will you take me in?  
I'm fading and falling  
And everything, you know

How it is, what it is  
What it was and will be

Don't slip or skid  
Or move or breathe  
Or laugh or die  
Or turn or touch me

Don't do anything  
I'm a live wire  
I'm a live wire
