

Not Your Prey

Squirrel Flower

I tried hard to forget
And you didn't want me remembering
Alone, I am a star
Burning above you

Feel you lurking on the move
Eyeing my back, making me shiver
But if you touch me, I won't be still
You're no predator
I'm not your prey, I'm not your kill

Feel you lurking on the move
Eyeing my back, making me shiver
But if you touch me, I won't be still
You're no predator
I'm not your prey, I'm not your kill
I'm not your prey, I'm not your kill

I tried hard to forget
And you didn't want me remembering
Alone, I am a star
Burning above you

Feel you lurking on the move
Eyeing my back, making me shiver
But if you touch me, I won't be still
You're no predator
I'm not your prey, I'm not your kill

Feel you lurking on the move
Eyeing my back, making me shiver
But if you touch me, I'll lash out
Don't fuck with me
If I must, you know I will

I'm not your prey, I'm not your kill
I'm not your prey, I'm not your kill

To give up my belongings, the little things
Is to be free of the chains that keep me here
Lying in your arms
Lying in your arms
