

Slapback

Squirrel Flower

I don't know what I could I do if not this
And I think of you all the way back
You could tell me that my smile is diamonds
And then you could take it all back
I don't know what I could I do if not this
And I think of you all the way back
You could tell me that my body is sacred
And then you could take it all back
And then you could take it all back

Good thing my body is for my eyes only
I own it and I will attack
Good thing my smile is part of my body
I own it and I will attack
You don't care what my answer is but
If you slap me I'll slap you right back
You don't care what my answer is but
If you slap me I'll slap you right back

You're not one to think of things like that, no
You're not one to think of things like that, so
I'll be quiet, I'll be gentle
And I'll call you right back
I'll be quiet, I'll be gentle
And I'll call you right back
