

Starshine

Squirrel Flower

You are the star
And the starshine
And I'm loving your moons, mmm

Air all around me
Spirits move
And confound me
Could I move you?

Put that long list down
Everything changes

Don't let it pass
Don't let it wither
Don't let it pass
Don't let it wither

The sun doesn't care
If you made yourself small

It'll still burn
It'll still burn you
It'll still burn
It'll still burn you

You are the star
And the starshine
And I'm loving your moods
The moon's rising

Don't let it pass
Don't let it wither
Don't let it pass
Don't let it wither
