

## your love is a disaster

Squirrel Flower

Your love is a diamond  
It sharpens me so nice  
But I was never one for  
Sharpness or disguise

The wind told me a secret  
More coming where that came from  
And I saw the trees shiver  
And brace for all to come

Take me dancing  
Touch my skin and hold me  
Anything  
Anything to feel close again  
Your love is a disaster  
It frightens me so bad  
But I keep looking straight  
Blinders up  
Yeah, I've got it made

There's a train the next block over  
Whistle blows on foggy nights  
Sneaks through my open window  
But I don't mind the noise  
No, I don't mind the noise

Take me dancing  
Touch my skin and hold me  
Anything  
Anything to feel close again  
Take me dancing  
Touch my skin and hold me  
Anything  
Anything to feel close again  
Feel close again  
Close again  
Close again
