

You're Drivin' Me Crazy

Squirrel Nut Zippers

You left me sad and lonely
Why did you leave me lonely?
I have a heart that's only
For nobody but you

I'm burning like a flame, dear
Won't ever be the same, dear
I always put the blame, dear
On nobody but you

Yes, you, you're drivin' me crazy
Will I do? Will I do?
My tears for you make everything hazy
They cloud the skies of blue

I do, I have friends who would hear me
To cheer me, believe me, if they knew
That you were the kind who would hurt me
Desert me when I needed you
Yeah, you, you're drivin' me crazy
Will I do to you?

You, you, you, you, you, you're drivin' me crazy
Will I do? Will I do?
My tears for you, you, you, make everything hazy
They cloud the skies of blue

I do, I have friends who would hear me
To cheer me, believe me, if they knew
That you were the kind who will hurt me
Desert me when I needed you
Yeah, you, you're drivin' me crazy
Will I do to you?

I do! I have friends who would hear me
To cheer me, believe me, if they knew
That you were the kind who will hurt me
Desert me when I needed you
Yeah, you, you're drivin' me crazy
Will I do to you?
