

In My Mind

SR-71

Make this moment last forever and a day
Watching you drive by
Not letting you drive away
Can you see me trying to wave you down tonight
'Cause I need to see you one more time
You'll always be there in my mind
In my dreams you can hide
And every night I'm gonna bring you back to life
They're in my mind
An angel bathed in light
Telling me everything's gonna be alright...
If I can fall asleep tonight
Lonely is the feeling I can't comprehend
So I'm skipping the last page to see how this will end
Have you ever felt so helpless
When the walls built to protect us
Suddenly are gone
And you hate everything that's breathing
The life you're used to cheating
Has finally caught on
