SSGKobe

Mm, mm
Yeah, yeah
Tay Keith, what the fuck up, nigga?

She livin' far away, yeah
Throwing my heart away, yeah
My heart been too cold, but I'm letting it throw away
So hurt in the club, she gave me some love but I had to throw it away
There'll be another day, yeah, there'll be another day, yeah

Shawty say she wanna eat on me, yuh, next second she wanna beat on me, yuh
Doin' good mentally, yeah
Making hits just like The Beatles be, yeah
BB-B, I just pull up with them choppers, go BBB
She independent, I love when she needing me
Hop on the bed and she telling me, "Finish me"
I came to win, fucking over the energy
Lot of my homies turned into my enemies
Matter of fact, like, the niggas was skinning me
How you hold all that hate? You been draining my energy
Know that I'ma go up, I'm the man of the century

She livin' far away, yeah
Throwing my heart away, yeah
My heart been too cold, but I'm letting it throw away
So hurt in the club, she gave me some love but I had to throw it away
There'll be another day, yeah, there'll be another day
