Uh huh huh
Did it in a taxi
Did it in the backseat (Ah)
Boy you best not battle me (Ha)
I suggest not battle me (Ha)
Got the lean and the uck up in my system
Two, fifty K for my wrist jaw
And this girl keep calling me (Ah)
And this girl keep calling me (Ah)

Pull up in that wraith baby
Pull up in that wraith baby
Do you wanna test cars?
If so, I got that [?] baby
Lil boy better mind his self, huh
Lil girl better mind ya self, huh
I thought that it'd be special
I thought it would be rose petals
Didn't think that I had to go flex ya
Didn't think the way the way the way
Demons in, gotta let em go
When you walk in my house, no photos
And I got a check from last month
Run up on me, no bueno
Got the same style, got the same drip
But you know we not the same though
It's not my fault, not my fault
I will not take the blame, no (yeah, huh)

Uh huh huh

Boy you best not battle me (Ha)
