

Ginseng

Chains spark like some lightning  
In the sun, it start brightening  
Took his thot, now he wanna fight me  
Snakes in the grass, they biting  
Moshpit, all my niggas fighting  
Scary sight, man, we so frightening  
My niggas trapping, like you should know it  
Gimme the Wockhardt, I'ma pour it  
I got a way with words, I am a poet  
Say you fuck with me, then show it  
Say you in love with me, then show it  
If you not, then I guess that I'm going  
Smoking gelato, you know what I'm blowing  
These niggas is bitches, I swear they be ho'ing  
A lot on my back, man, you know I be towing  
My niggas is crazy, don't know what they totin'  
I walk in the party and everyone know me  
I got two-four on my back like I'm Kobe  
Like, huh, wait, I'm Kobe  
Creating niggas, man, I feel like Adobe  
I threw it long, see how far that that I go  
I'm getting this money, feel like a Narco  
I'm off of the lean so it got me so slow  
My diamonds whiter than some mo'fucking snow  
And lil' Johnny keep more clips than a show  
I'm getting money, then I hop on the road  
My money greener than a mo'fucking toad  
I got the key, man, I got the barcode  
My money coming in like a boatload  
But you could meet me at the crossroads  
Ayy, waiting, waiting, waiting, waiting  
No, he never show  
This is silver, not no gold  
Niggas getting kinda bold  
Boy, you getting kinda bold for the one who sold a soul  
Green beam, it's finna go  
Niggas shady, yeah, they low  
Niggas shady, yeah, they low  
Bitch, I'm blacker than a crow  
I don't really give a fuck  
Bitch, you know what the fuck up  
SSR up in my cup
