

one day..

SSGKobe

I always seem to find myself all alone (All alone)
I 'member all the nights we spent at by the phone (By the phone
)
I love you don't mean shit, girl, I been heard it all (Heard it
all)
I always seem to find myself caught all alone (Caught all alone
)
I honestly just want love from under me
Is it under me? Is it under me? Is it under me?

Residing pull is driving me, is driving me, is driving me, is d
riving me
Help my stem see light
Wish we could fix our dying star
I don't even remember the moonlight
I hope someday, you could do right
I hope someday, you can act right
I hope someday, you can be mine
I hope someday, we can be fine
I hope someday, we don't have to fight
I hope someday, we could be friends
