

ONLY TIME

SSGKobe

You don't have to lie to me
Put aside my pride, you see
You don't have to try to keep, fuckin' with me, lying
Look through your phone, seein' shit that I don't like
Lookin' at names, I see niggas I don't like
This is the race and I wake up and don't try
Keep it a hunnid, don't tell me your lying
Glad you stayed down, I can say your my wife
I just pull up and your ready, it's on sight
Only time I'm wastin' time is if it's with you
If it's with you, if it's with you
Only time I'm wastin' time

Look in your eyes and I cry
I finally realized, you're my wife
All of those nights you had cried, I'll make it up with my life
, promise I'll try
Pray over us, father God, I cannot lose this girl, she is my world
I wake up this [?], these niggas thinkin' they chose
Look at the times we had, takin' a shower Abloh, [?]
This month I would been a dad
Sometimes I'm sad, wish I could go back in time
Maybe rewind
I'm taking drugs to the brain
I'm taking drugs to the brain
Fuck all the "I want all the fame" niggas
Fuck, I gave you your name nigga
Niggas be weird, that's lame shit
Cause when it a problem, they blame me
When they got no more dollars, they blamin' you
Can you post it bro, damn not helping you
Did this shit on my own, had shit to prove

You don't have to lie to me
Put aside my pride, you see
You don't have to try to keep, fuckin' with me, lying
Look through your phone, seein' shit that I don't like
Lookin' at names, I see niggas I don't like
This is the race and I wake up and don't try
Keep it a hunnid, don't tell me your lying
Glad you stayed down, I can say your my wife
I just pull up and your ready, it's on sight
Only time I'm wastin' time is if it's with you
If it's with you, if it's with you
Only time I'm wastin' time
