I just hopped out of that Maybach with my baby
She the one even though she drive me crazy (Vroom)
Pulling that car, drop the top off
Protect myself from love but it ain't working lately
I just hopped out of that Maybach with my baby
She the one even though she drive me crazy (Vroom)
Pulling that car, drop the top off
Protect myself from love but it ain't working lately

Thank you for supporting me
And I been tryna run them digits
Diamonds spinning like a fidget
Playing soccer, we gon' kick it
These niggas pissed at me, oh
But they won't battle me, oh
Protecting me like the cross
I need them bands every month
I'm tryna buy a new coupe
Wiping your nose, got a flu
Selling dog food, it ain't blue
I know you using me too
I'm with my gang and we next
He talking down, he see black
He say he banging them sets
Until a nigga get checked

I just hopped out of that Maybach with my baby
She the one even though she drive me crazy (Vroom)
Pulling that car, drop the top off
Protect myself from love but it ain't working lately
I just hopped out of that Maybach with my baby
She the one even though she drive me crazy (Vroom)
Pulling that car, drop the top off
Protect myself from love but it ain't working lately
