

(Zetra)

So where do you be when I call you? (Where do you be? Yuh)
Bae, I want the lean and my Wock' boo (I want the lean, yuh)
I know that it's sad and and it's hard to (I know that it's sad
)
I know that it's sad and and it's hard to (Uh, uh, yeah)

You want me right here or you leavin' me lost
I cannot cuff that bitch, she is a thot
She wanna come stay a week for the vibe
All of her friends wanna eat me up now
You lost and forever, you leavin' me dead
You make me wan' put a beam in my head
All of them times you had left me on read
Honestly, you is my biggest regret

She say, "I'm lonely," yeah
I said, "I'm Kobe," yeah
She wanna hold me, yeah
Pour a lil' four of lean, yeah
Please do not forget the things that I did
I am not satisfied 'til I see red
I'm smackin' her ass and she jump on the bed
I'm stackin' the racks and the bands for my kin

So where do you be when I call you? (Where do you be?)
Bae, I want the lean and my Wock' boo (I want the lean)
I know that it's sad and and it's hard to (I know that it's sad
and it's hard to)
I know that it's sad and and it's hard to (You, you)

You want me right here or you leavin' me lost
I cannot cuff that bitch, she is a thot
She wanna come stay a week for the vibe
All of her friends wanna eat me up now
You lost and forever, you leavin' me dead
You make me wan' put a beam in my head
All of them times you had left me on read
Honestly, you is my biggest regret

She wanna come stay a week for the vibe
You lost and forever, you leavin' me dead
All of them times you had left me on read
