

## Deep In It

St. Germain

Deep in the West, where the tall mountains grow  
I've gone home  
Where the Heaven above turns red from the fire  
Down below

Are you listening to me  
When I'm talking to you  
Said together we're one  
Divided we're through  
Divided we're through

Silver friend at night, yellow friend you come  
With the dawn  
Back in my heart, i've been drying my eyes  
See me run

So you hang onto me  
And I'll hang on to you  
Said together we're one  
Divided we're through  
Divided we're through

Refusing to talk, I suppose that it's all  
For loves sake  
And learning to give, that's important, before you  
Can take from me

Are you listening to me  
When I'm talking to you  
Said together we're one  
Divided we're through  
So hang on to me  
And I'll hang onto you  
Said together we're one  
Divided we're through  
Divided we're through
