Off the ground headin for another take I remember all the sounds you used to make But I keep my down despite the animals on your face How many times have I said

I've got a feeling we will never get closer than this I can't imagine there's a way to get closer than this

Catch up with the other kids Even falling far behind Starlight in the middle of the Ocean Opens up my heart tonight

I've got a feeling we will never get closer than this I can't imagine there's a way to get closer than this I've got a feeling we will never get closer than this I can't imagine there's a way to get closer than this

And I keep on pushin
Keep on pushin
Keep on pushin on
Oh we keep on pushin
Keep on pushin
Keep on pushin on

I've got a feeling we will never get closer than this I can't imagine there's a way to get closer than this I've got a feeling we will never get closer than this I can't imagine there's a way to get closer than this

And we keep on pushin
Keep on pushin
Keep on pushin on
And we keep on pushin
Keep on pushin
Keep on pushin on
