

Fear Of Falling

St. Lucia

Open eyes
By the moon we sleep tonight
We'll stay outside
By the television light

You're on my mind
Like a radio inside
The magazine
On a page of new designs
And it's hard, so hard

But we'll keep running through the years
Like a song, like a song that keeps you holding back those tears
We belong, we belong on the other side of fear
See the lights in the stairs as you go
I guess we'll never know
The fear of falling

Now you're here
And the music comes to life
The violins
And your filaments ignite
Like the sun
Like the sun

So we'll keep running through the years
Like a song, like a song that keeps you holding back those tears
We belong, we belong on the other side of fear
See the lights in the stairs as you go
I guess we'll never know
The fear of falling

So we'll keep running through the years
Like a song, like a song that keeps you holding back those tears
We belong, we belong on the other side of fear
See the lights in the stairs as you go
I guess we'll never know
The fear of falling
The fear of falling
The fear of falling

The fear of falling
