

# Lights Off

St. Lucia

Play the game  
I'm playing it all for you  
But sometimes we just need to get away  
From all of these broken rules

Oh I've been dreaming of a special place  
Only for me and you  
So baby come on buckle up  
Away we go

You know it's better with the lights off baby  
You know it's better with the lights off baby, yeah  
You know it's better with the lights off baby  
Lights off baby yeah, baby yeah

Honey you  
You can be so damn cruel  
I never thought that I'd be missing you  
Sleeping in the same room

Now maybe it is time to fly away  
Hoping for something good  
So come on baby take my hand  
Away we go

You know it's better with the lights off baby  
You know it's better with the lights off baby, yeah  
You know it's better with the lights off baby  
Lights off baby yeah, baby yeah

And maybe someday we could try now baby  
You know it's better with the lights off baby, yeah  
You know it's better with the lights off baby  
Lights off baby yeah, baby yeah

And now you're making me go ooh  
I get up on the floor  
And now you're making me go ah  
Until I want some more

And now you're making me go ooh  
I get up on the floor  
And now you're making me go ah  
Until I want some more  
I want some more

You know it's better with the lights off baby  
You know it's better with the lights off baby, yeah  
You know it's better with the lights off baby  
Lights off baby yeah, baby yeah

And maybe someday we could try now baby  
You know it's better with the lights off baby, yeah  
You know it's better with the lights off baby  
Lights off baby yeah, baby yeah

And now you're making me go ooh

I get up on the floor  
And now you're making me go ah  
Until I want some more

And now you're making me go ooh  
I get up on the floor  
And now you're making me go ah  
Until I want some more  
I want some more
