

## Separate World

St. Lucia

Johnny was a dreamer  
Who wound up living on the street  
Made it to the line up  
Now he's fallin' on his feet

Gary got a medal  
For playing final fantasy  
Before he finds a lager  
Now he's a kitten up a tree

Oh baby look what you've done  
It's a real big mess and the secret is out  
Don't bother trying to sleep through the noise

'Cause we're all living in a separate world  
Got pink lemonade for all the boys and girls  
Can't believe all you're seein' online

Wake me in the morning  
I gotta check my BTC  
And if we're goin under  
We'll start a different company yeah

Oh sugar look what you've done  
It's a real big mess and they're coming for us  
Don't bother trying to sleep through the noise

'Cause we're all living in a separate world  
Got pink lemonade for all the boys and girls  
Can't believe all you see in the Times

'Cause we're all living in a separate world  
Got pink lemonade for all the boys and girls  
Can't believe all you see with your eyes, yeah
