

# Stop Pulling Me Away

St. Lucia

All the gold in the world  
For all the pain in your heart  
Cause I know that with time  
We will begin to understand

Open up your house tonight  
Hold the flame in your hands  
Hold a mirror to the night  
When the morning comes

I love you too much to get in  
I wonder where you go  
Whenever you get in  
I am much too close

Stop pulling me away  
You were alive or so they say  
Stop pulling me away  
Here comes the night again  
Open up your house tonight  
Hold a mirror to the night

Holdin up, I am home  
Head to the north, you go

Face down I remember  
All the time it took

But it takes so much time to get up and know  
Always take  
You remember where I like to hold  
I like to hold

Hold you too much to get in  
I wonder when you go  
Whenever you get in  
I am much too close

Stop pulling me away  
You were alive or so they say  
Stop pulling me away  
Here comes the night again  
Stop pulling me away  
You were alive or so they say  
Stop pulling me away  
Here comes the night again

I remember how you called me up  
And I remember how  
The faces all around your face  
Slow it down, I remember you coming up  
I was waiting for your memory  
Slow it down, I remember  
You were a stranger then and a stranger now
