

# What's the Difference

St. Lucia

In the old town  
We settle  
What's the difference  
If we run

You collided  
With the sun  
You're indifference  
Is it enough?

Broken circles  
Broken hearts  
Hands together  
Now we can start

Change the angle  
Change the parts  
You're indifference  
Is it enough?

We gave all that we had and we got nothing for it  
The colors that together we becoming  
You had my hope and you did nothing for it  
So much undone so much we believe in  
You had my hope and you did nothing for it  
So much undone and so much we believe in

Hold my hand  
I'm here for you  
The past undone  
The moment true

We walk both sides  
We've fallen through  
That dusty road  
We know so well

Hold my hand  
I'm here for you  
The past undone  
The moment true

We walk both sides  
We've fallen through  
That dusty road  
We know so well
