

## Fall Moon

St. Paul & The Broken Bones

You love me, and you always did, and you always will, and I'm r  
unning on

Don't worry, maybe I'll fix it the next song

Just kidding, please let me be the smarter one for only once

Don't stop reading till you hear what's coming on

You're lovely as the night we met in that fall moon

Winter, spring, or summertime, your beauty shines through

I can't wait to get old and just talk to you

Oh, I miss you, baby, oh, I miss you, baby

I hope that that made you smile just a tiny bit for a little wh  
ile

I know you should get more than just one song

It's hard in a pretty way to tell why I love you so

Now listen to this one line one last time

You're lovely as the night we met in that fall moon

Winter, spring, or summertime, your beauty shines through

I can't wait to get old and just talk to you

Oh, I miss you, baby, oh, I miss you, baby

Lovely as the night we met in that fall moon

Winter, spring, and summertime, your beauty shines through

I can't wait to get old and just talk to you

Oh, I miss you, baby, oh, I miss you, baby

You're lovely as the night we met in that fall moon

Winter, spring, or summertime, your beauty shines through

I can't wait to get old and just talk to you

'Cause I miss you, baby, oh, I miss you, baby
