

Eye in the sky's watchin' everything that we do  
They ain't got no reason, but lately, our world seems so cruel  
Electric girl is kissin' every one of my hopes  
Just for you and me now, tryna figure it all out  
Can you feel it now?  
On the underground  
With that digital light

I just, I just can't live without you  
(I can't live without you, no, no, no, no)  
I just, I just (Can't live without)  
I can't live without you, no, no, no, no

So lady, queen, now tell me, everyone that you know  
Feeling all your comforts, but oh, I still feel so alone  
Static soul and static minds  
Let's just stay right here  
Quit your allegory and give it all the love here  
Don't stop

Ain't it pretty now?  
On the underground  
With that digital light

I just, I just can't live without you  
(I can't live without you, no, no, no, no)  
I just, I just (Can't live without)  
I can't live without you, no, no, no, no  
I just, I just can't live without you  
(I can't live without you, no, no, no, no)  
I just, I just (Can't live without)

Bring the light from Heaven above  
Yeah, it feels alright, nothing is real  
And fake love is better than none  
It's invisible

Ain't it pretty now?  
On the underground  
With that digital light

I just, I just can't live without you  
(I can't live without you, no, no, no, no)  
I just, I just (Can't live without)  
I can't live without you, no, no, no, no  
I just, I just can't live without you  
(I can't live without you, baby)  
I just, I just (Can't live without)

I just can't live, no, I just can't live  
I just can't live, no, I just can't live without you, baby  
I just can't live, no, I just can't live  
I just can't live, no, I just can't live without you, baby  
I can't do it, darling, no, no, no
