

## Down

St. Vincent

You hit me one time  
Imagine my surprise  
You hit me two times  
You got yourself a fight  
I was a patsy  
You were a creep from the cheap seats  
Thinking that my little scratch was like your big victory  
See but I'll take you down, uh-huh

Tell me who hurt you - no, wait, I don't care to  
Hear an excuse why you think you can be cruel  
(Cruel, cruel, cruel)  
Mama always told me  
(My mama told me)  
You got to turn the other cheek  
But even she would agree  
You're an exception to that rule  
(Rule, rule, rule)

I'll take you  
Yeah I'll take you  
I'll take you  
I'll take you down  
(I'll take you down, down, down, down)  
I'll take you down  
(I'll take you down, down, down, down)

Go get your own shit  
Get off of my tit  
Go face your demons  
Check into treatment  
Go flee the country  
Go blame your daddy  
Just get far away from me

Cause I'll take you down  
(I'll take you down, down, down, down)  
'Cause I'll take you down  
(I'll take you down, down, down, down)  
(I'll take you down)

Go tell your friends
